EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. Cancel claims 14-20.**
2. Claims 3-6, 9, 10, and 12 are allowed.
3. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests a semiconductor device with a multiple level wiring or metallization configuration such that a first wiring layer has a plurality of circuit blocks with designated regions on the substrate for two wiring directions (which are orthogonal with respect to each to other) while another wiring layer has wiring which is both parallel and electrically connected to the first wiring layer.
4. Kajihara (USPN 5,656,833) discloses a gate array with a multiple layer wiring configuration. However Kajihara does not disclose designated regions on the substrate for two wiring directions (which are orthogonal with respect to each to other). Thus Kajihara does not teach the applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
